The International Elephant Foundation (IEF) funded a project this year on “Fostering Human Elephant Coexistence (HECx) awareness in Erode, Tamil Nadu, India”. The main objective of the project is to conduct a teacher training workshop on human elephant coexistence for 25 teachers and 25 mass awareness programmes for students and through this reaching out 2500 students who live in human elephant conflict areas.

Zoo Outreach Organization has developed a methodology to introduce and teach about Human Elephant Coexistence by active learning / teaching tool. This aims at reaching out a wide range of audience from children to adult of both literate and non-literate audience. Hence this has been proved to be very effective especially in the rural areas. ZOO translated the teaching guide “Getting along with Elephants” and the “Ele-kit” packets in local language. These materials are used in this project.

The elephant teaching guide consists of five units having activities on different assessment methods, kinds of elephants, elephant facts, drama with themes on elephant biology and threats, systematic position of Asian elephants in animal kingdom, comparing elephants with that of

1Sr. Education Officer, ZOO, Coimbatore. Email: marimuthu@zooreach.org
2Scientist/Education Coordinator, ZOO, Coimbatore. Email: badaniel@zooreach.org
other pests, elephant role in human culture, elephant behaviour, past and present Asian elephant distribution – Map activity, illustrated history of elephant, peoples perception of elephants - Role play, village committee and debate. This teaching guide can be used as a medium for conveying a wide range of active learning techniques for both experienced and casual educators. This also provides education about Asian elephants generally and creates interest among students and other target groups to contribute at individual level to help mitigate HEC. This can be used as a comprehensive volume to run a course depending on the group and the time availability. The complicated scientific facts can be delivered through indoor or outdoor activities.

This module help the educators to conduct programme in a very interesting and make the audience understand the concept in a playful method. The approach in the teaching guide is “first and foremost” that individuals and families who live in elephant areas, take responsibility for themselves which includes learning ways to avoid confrontation and promoting self- protection, become willing to exchange some old habits and beliefs for survival and thus reduces the incidence of injury and death due to HEC. At the same time they may also learn other techniques which may help them both “Get Along with Elephants” and salvage property,

A scene from Mini drama

Understanding elephants past and present distribution through a map activity

In between the sessions various energizer games were also taught
An activity to understand how elephants communicate using sense organs

crops, etc., but our primary purpose is mitigation... reduction of incidence of death and injury, both to humans and animals.

The teacher training was held on 16-17 November 2017 at Bharathi Vidhyalaya Matriculation Higher Secondary School. Twenty-five teachers from Sathyamangalam, Bargur, Anthiyur and Thalavadi areas participated. Assistant Education Officer, Andhiyur, inaugurated this and coordinated by Mrs. T. Geetha, District Eco-Club Coordinator from o/o Chief Education Officer, Erode and

In two days training most of the contents from the teaching guide was covered. The teachers learnt new teaching tools, which can be applied for any species or issues. They were also taught about how to plan an education programme by using ele-kit packets. They actively involved in all the activity with great zeal. As a follow up of this, in the coming months all 25 schools will be visited

Mr. L. Vijeyendran, District National Green Corps Coordinator, Gobi.

Our sincere thanks to International Elephant Foundation for the funding support, Chief Education Officer Erode for the coordination and Mr. P.R. Velumani, Correspondent, Bharathi Vidhyalaya MHSS for the venue and other support.
